PROFESSIONAL SUMMARY

Senior Full Stack .NET Engineer with 7+ years of experience designing scalable enterprise applications across fintech and consulting domains. Expertise in .NET Core, C#, Angular, Azure Cloud, Microservices, Docker, Kubernetes (AKS), CI/CD, and SQL Server. Proven track record in modernizing legacy systems into cloud-native microservices, improving deployment velocity, reliability, and application performance.

TECHNICAL SKILLS

Languages: C#, SQL, JavaScript, TypeScript, HTML5, CSS3

Backend: .NET Core, ASP.NET MVC, ASP.NET Web API, Entity Framework Core, LINQ, REST APIs, Microservices

Frontend: Angular, AngularJS, RxJS, Bootstrap

Cloud & DevOps: Microsoft Azure, Azure App Services, Azure Functions, Azure SQL, Azure Service Bus, Azure Blob Storage, Azure Queue Storage, Azure Key Vault, Azure DevOps, CI/CD Pipelines, Jenkins

Containerization: Docker, Docker Compose, Kubernetes (AKS), Helm

Databases: SQL Server, Stored Procedures, Query Optimization, Execution Plans

Testing: xUnit, Moq, Unit Testing, TDD, Code Coverage

Tools: Git, Visual Studio, JIRA, Datadog, Postman, Agile/Scrum

PROFESSIONAL EXPERIENCE

Fidelity Investments

March 2022 – Present

Software Engineer — Bengaluru, India

- Modernized legacy C++ transaction systems into scalable C# microservices deployed on Azure Kubernetes Service (AKS), enabling zero-downtime deployments and independent scaling.
- Designed high-performance RESTful APIs using .NET Core and C#, improving response times by 35% while supporting millions of daily financial transactions.
- Implemented event-driven microservices architecture using Azure cloud services to improve scalability and deployment efficiency.
- Built CI/CD pipelines using Azure DevOps and Jenkins for automated deployments and rollback strategies.
- Developed unit testing suites using xUnit and Moq, achieving 96% code coverage across critical financial systems.
- Mentored junior developers in clean architecture, DSA, and cloud-native development practices.

Accenture

December 2020 – February 2022

Application Development Analyst — Bengaluru, India

- Developed AI-powered enterprise chatbots using Azure Cognitive Services, LUIS, and Bot Framework, reducing support workload by 30%.

- Migrated chatbot solutions from Bot Framework V3 to V4, improving scalability and maintainability.
- Built enterprise-grade Web APIs using .NET Core, Entity Framework Core, and LINQ.
- Implemented Azure cloud deployments integrating App Services, Key Vault, Service Bus, Blob Storage, and Application Insights.
- Created Azure DevOps CI/CD pipelines, reducing release cycles from 2 weeks to 3 days.
- Wrote xUnit test cases with high code coverage and validation strategies.

Accenture

January 2019 – December 2020

Associate Software Engineer — Bengaluru, India

- Led migration from AngularJS to Angular 10, improving frontend maintainability and application performance.
- Developed responsive UI components and reusable frontend modules for enterprise applications.
- Integrated Google Maps API and implemented scalable pagination solutions.
- Designed optimized SQL Server stored procedures, views, and schema structures.
- Resolved SQL performance bottlenecks using execution plan analysis and query optimization.

PERSONAL PROJECTS

Dockerized .NET Core Application

github.com/gousesshake0786/hello-docker

- Built and containerized a .NET Core Web API using Docker and multi-stage Dockerfiles.
- Configured container networking, image publishing, and port mapping.
- Implemented Docker Compose orchestration for multi-container applications.
- Automated Docker image build and deployment using Jenkins pipelines.

EDUCATION

Rajiv Gandhi University of Knowledge Technologies (RGUKT), RK Valley 2014 – 2018

Bachelor of Technology (B.Tech) – Computer Science

CERTIFICATIONS & AWARDS

- Microsoft Certified: Azure Administrator Associate (AZ-103)
- Microsoft Certified: Azure Fundamentals (AZ-900)
- Developing ASP.NET MVC Web Applications – Microsoft Certification
- Accenture CIO GEM Award for Outstanding Performance & Client Impact
